

The Society of Environmental Toxicology and Chemistry (SETAC) is committed to excellence in the environmental sciences. We are aware that environmental quality is determined by many different factors, and it is our mission to support the development of principles and practices for protection, enhancement, and management of sustainable environmental quality and ecosystem integrity.

The SETAC Global Partners Program – the premier level of SETAC support – is designed to accomplish this mission. By becoming a SETAC Global Partner, your organization will ensure that “Environmental Quality Through Science®” is more than just a shared goal - it’s a reality.

# enhance your organization globally

# program benefits

## Free Individual Subscriptions for the Global Partner Contact

- *Environmental Toxicology and Chemistry* (monthly journal)
- *Integrated Environmental Assessment and Management* (quarterly journal)
- SETAC Membership Directory

## Recognition as a Distinctive Supporter of SETAC Global Initiatives

*The SETAC World Council (SWC) acknowledges that Global Partners help to support SWC activities in these areas as appropriate. Global Partner funds are allocated at the discretion of the SWC.*

- Underwriter for SETAC Development Fund
- Donation to SETAC International Programs Committee to support sponsored memberships and travel grants
- Underwriter for SETAC publications and workshops
- Donation for fee waivers or travel grants for SETAC training courses/workshops
- Sponsor for student activities: student travel grants, sponsored memberships, and registrations for meetings, workshops, training

## Recognition as a SETAC Distinctive Supporter

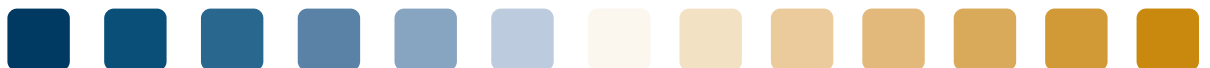

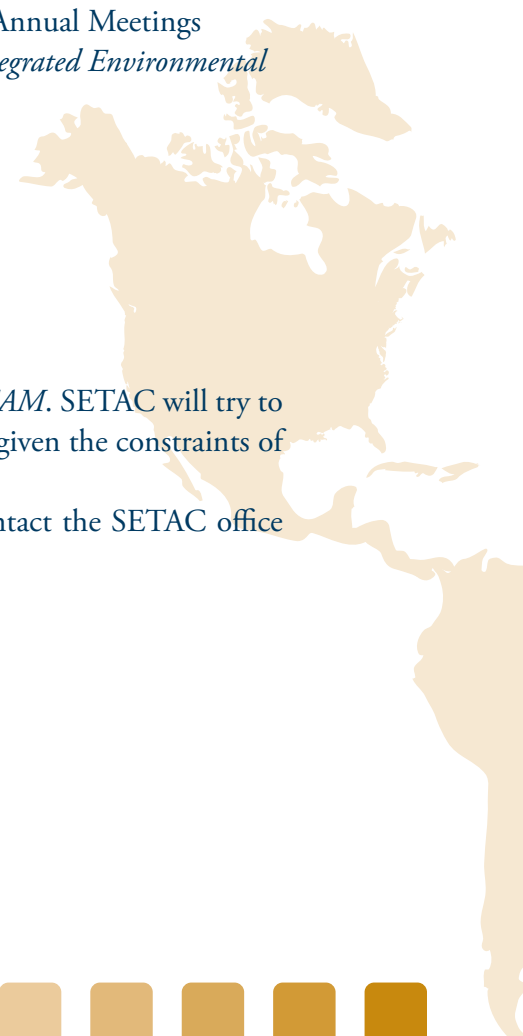

- Acknowledged in all Geographic Units' (GUs) Annual Meeting signs and publications
- Invitation to the Sustaining/Affiliate Member Receptions at GU Annual Meetings
- Acknowledged in *Environmental Toxicology and Chemistry* and *Integrated Environmental Assessment and Management* annually
- Certificate of appreciation (wall plaque)
- Listing on SETAC website

## Discounts on Publications

- Member discount on SETAC publications

## Free Advertising

- Free 1/8-page advertisement in either SETAC journal, *ET&C* or *IEAM*. SETAC will try to accommodate Members' request for timing of ad placement, but given the constraints of space, final placement is at the discretion of SETAC.
- 25% off on job announcements in the online CareerCenter (contact the SETAC office for instructions)

## Exclusive Benefits to Global Partners

(For-profit groups and individuals)

### Benefits at Annual Meetings

2 Complimentary Registrations at 2 GU Annual Meetings or 1 complimentary exhibit booth at 1 GU Annual Meeting

### Free Advertising

1/8-page ad in either SETAC journal

**Fee:** \$10,000 USD per year

## Exclusive Benefits to Global Partner Affiliates

(Non-profit groups)

### Benefits at Annual Meetings

1 Complimentary Registration at 2 GU Annual Meetings

### Free Advertising

1/8-page ad in either SETAC journal

**Fee:** \$5,000 USD per year

Additionally, Global Partners and Global Partner Affiliates can take advantage of SETAC annual meetings in Asia/Pacific, Europe, Latin America, and North America by helping the Program Committee organize special technical sessions on pertinent topics such as international or global environmental issues, global environmental governance, harmonization of test methods and guidelines, and interactions between trade and environment. SETAC will also provide meeting space to participants of the SETAC Global Partners Program for discussion groups or committee/working group meetings. Global Partners and Global Partner Affiliates will benefit from the reduced cost to access the world's top experts from government, industry, and academia.

# about the society

The Society of Environmental Toxicology and Chemistry (SETAC) provides the central scientific arena for sustainable high-quality environments on a worldwide basis and facilitates the translation of environmental science into policy-making.

SETAC is dedicated to

- promoting research education, communication, and training in the environmental sciences,
- promoting the application of interdisciplinary environmental sciences in managing environmental stressors,
- participating in scientific interpretation and communication of exposure to and effects of environmental stressors, ecological risk assessment/management, and solutions for global environmental problems,
- providing forums for communication and interactions among professionals on a multi-sector, interdisciplinary, and multinational basis on environmental issues, and
- developing principles and practices for sustainable environments, considering appropriate ecological, economic, and social aspects.

Please contact SETAC Global Executive Director or the SETAC office nearest you for additional information on the SETAC Global Partners program.
